

Persisiran Pantai: **ASET NEGARA**

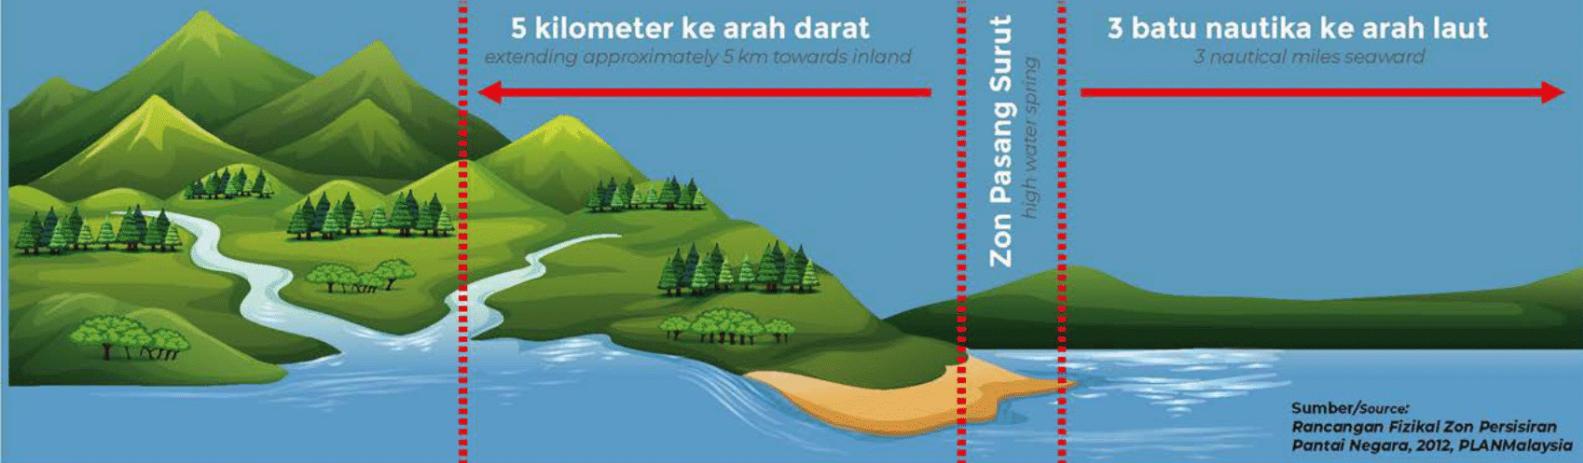

COASTAL AREAS : A NATIONAL ASSET

DEFINISI PERSISIRAN PANTAI

Definition of Coastal Areas

Kawasan yang mempunyai **garisan persisiran pantai** sejauh
5 km ke daratan daripada **air pasang perbani** dan
3 batu nautika ke laut daripada garisan surut terendah

A coastal area extending approximately 5 km towards inland from the mean high water spring
and 3 nautical miles seaward from the lowest tide.

Rancangan Fizikal Zon Persisiran
Pantai Negara, 2012, PLANMalaysia

PANJANG PERSISIRAN PANTAI

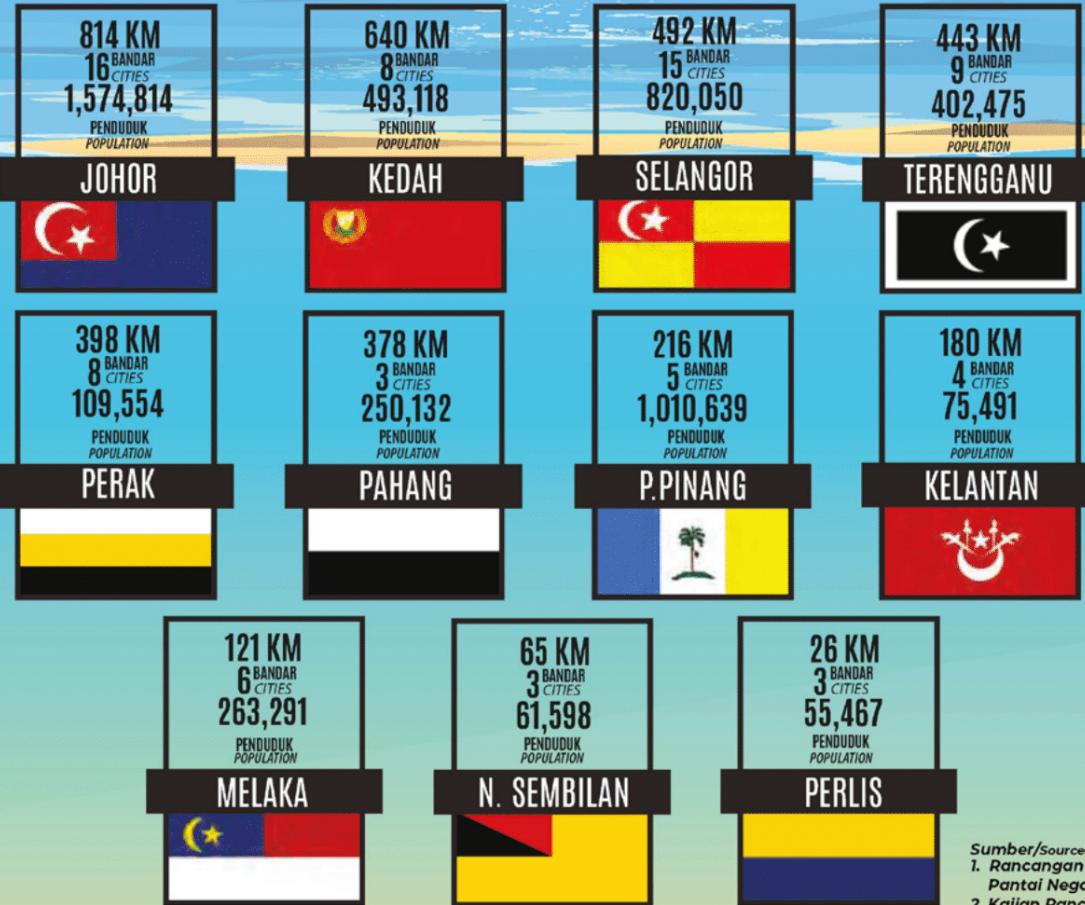

LENGTH OF COASTLINE OF PENINSULAR MALAYSIA

**3,773
KILOMETER**

GUNA TANAH UTAMA DI KAWASAN PERSISIRAN PANTAI MAJOR LAND USES IN COASTAL AREAS

* Jumlah Penduduk adalah Populasi Penduduk di Persisiran Pantai di Negeri-negeri Semenanjung Malaysia.
Population is the Coastal Population in the States of Peninsular Malaysia.

SDGs

MATLAMAT PEMBANGUNAN MAMPAK BERKAITAN DENGAN PENGURUSAN PERSISIRAN PANTAI

SUSTAINABLE DEVELOPMENT GOALS RELATED TO COASTAL MANAGEMENT

SDG 13

PERUBAHAN
IKLIM
CLIMATE CHANGE

Peningkatan aras laut memberi kesan kepada ekosistem pantai, kehidupan marin dan manusia

Global warming will cause rise of sea level. The impact of sea level rise will effect changes in coastal, marine and human ecosystems

SDG 14

KEHIDUPAN BAWAH AIR
LIFE BELOW WATER

Memelihara kelestarian kawasan pantai, laut dan sumber hidupan laut

Maintaining the sustainability of coastal area, ocean and marine resources

SDG 15

KEHIDUPAN DARATAN
LIFE ON LAND

Pemeliharaan dan pengurusan ekosistem dan biodiversiti kawasan persisiran pantai

Maintaining the sustainability of coastal area, ocean and marine resources

SDG 17

KERJASAMA BAGI
MENCAPAI
MATLAMAT
PARTNERSHIP FOR
THE GOALS

Menjalankan dan memperkuuh kerjasama di semua peringkat bagi mencapai matlamat pembangunan mampan di kawasan persisiran pantai

Strengthen the means of implementation and revitalize the global partnership towards achieving the goal of sustainable development of coastal areas

DASAR KEBANGSAAN BERKAITAN PENGURUSAN PERSISIRAN PANTAI

NATIONAL POLICIES RELATED TO COASTAL MANAGEMENT

RANCANGAN FIZIKAL NEGARA KE-3 (RFN Ke-3)

NATIONAL PHYSICAL PLAN-3 (NPP 3)

TERAS 2: Kemampamanan Spatial dan Daya Tahan Terhadap Perubahan Iklim

THRUST 2: Spatial Sustainability and Climate Change Resilience

TINDAKAN KD2.2B: Memulihara kawasan persisiran pantai

ACTION KD2.2B: Conservation of coastal areas

Kawasan persisiran pantai diklasifikasikan sebagai **sebahagian kawasan sensitif** alam sekitar yang perlu dilindungi kerana nilai warisan **semulajadi yang tinggi**. Pada masa yang sama ia **mempunyai risiko tinggi sebagai kawasan berisiko bencana hakisan dan kenaikan aras laut** disebabkan perubahan iklim global

Coastal areas are classified as part of environmentally sensitive areas that needs to be protected considering of their high natural heritage value, while at the same time facing a high risk of erosion and rising of sea level due to global warming impacts

ISU-ISU UTAMA

PERSISIRAN PANTAI

KEY ISSUES IN THE COASTAL AREAS

Sumber/Source: Rancangan Fizikal Negara Ke-3, PLANMalaysia, 2015

KEPENTINGAN KAWASAN PERSISIRAN PANTAI

THE IMPORTANCE OF COASTAL AREAS

Zon perlindungan semula jadi pantai dan kawasan pembiakan hidupan marin

Coastal zone serves as beach natural protection and spawning area for marine life

Serve as a purpose of transport, food supply, livelihood, energy, medicine as well as recreation

Berfungsi sebagai pengangkutan, bekalan makanan, mata pencarian, tenaga, perubatan serta rekreasi

Aktiviti yang mendominasi zon pantai termasuk industri, pertanian, perikanan, akuakultur, penternakan ayam, pembangunan bandar, kediaman, perlombongan, pelabuhan dan perkapalan

Among the activities that vastly dominates the coastal zone includes industry, agriculture, fisheries, aquaculture, poultry rearing, urban development, residential, mining, port and shipping

Economic benefits and resources that is vastly available includes fish, agriculture and poultry for food, mangrove for construction or fuel, mining for raw material supply and industry. Its nature pristine condition is generating tourism industry

Manfaat dan sumber ekonomi yang banyak termasuk ikan dan pertanian untuk makanan, bauk untuk pembinaan atau bahan bakar dan perlombongan untuk bekalan bahan mentah dan industri.

Keadaan semula jadi menjana industri pelancongan dan ekonomi negara

PENGURUSAN PERSISIRAN PANTAI

COASTAL MANAGEMENT

ZON PERLINDUNGAN PERSISIRAN PANTAI

Merupakan zon yang mempunyai pelbagai habitat dan ekologi semula jadi yang perlu dipelihara dan dilindungi sepenuhnya. Sebarang jenis pembangunan lain tidak dibenarkan, sama ada dalam bentuk tebus guna tanah, tambakan tanah atau lain-lain kaedah pembangunan

COASTAL PROTECTION ZONE

Is a zone which consists of wide range of natural habitats that must be fully protected and preserved. No development is allowed within the zone whether in the form of land reclamation, land infilling or other development methods

ZON PEMBANGUNAN PERSISIRAN PANTAI

Merupakan kawasan di mana pembangunan boleh dipertimbangkan, tertakluk kepada kaedah pembangunan. Sebarang pembangunan yang melibatkan tambakan dan/atau tebus guna tanah hendaklah dirujuk kepada Majlis Perancang Fizikal Negara dan Kabinet Negeri bagi Negeri Sabah sebelum Kerajaan Negeri mempertimbangkan pembangunan tersebut

COASTAL DEVELOPMENT ZONE

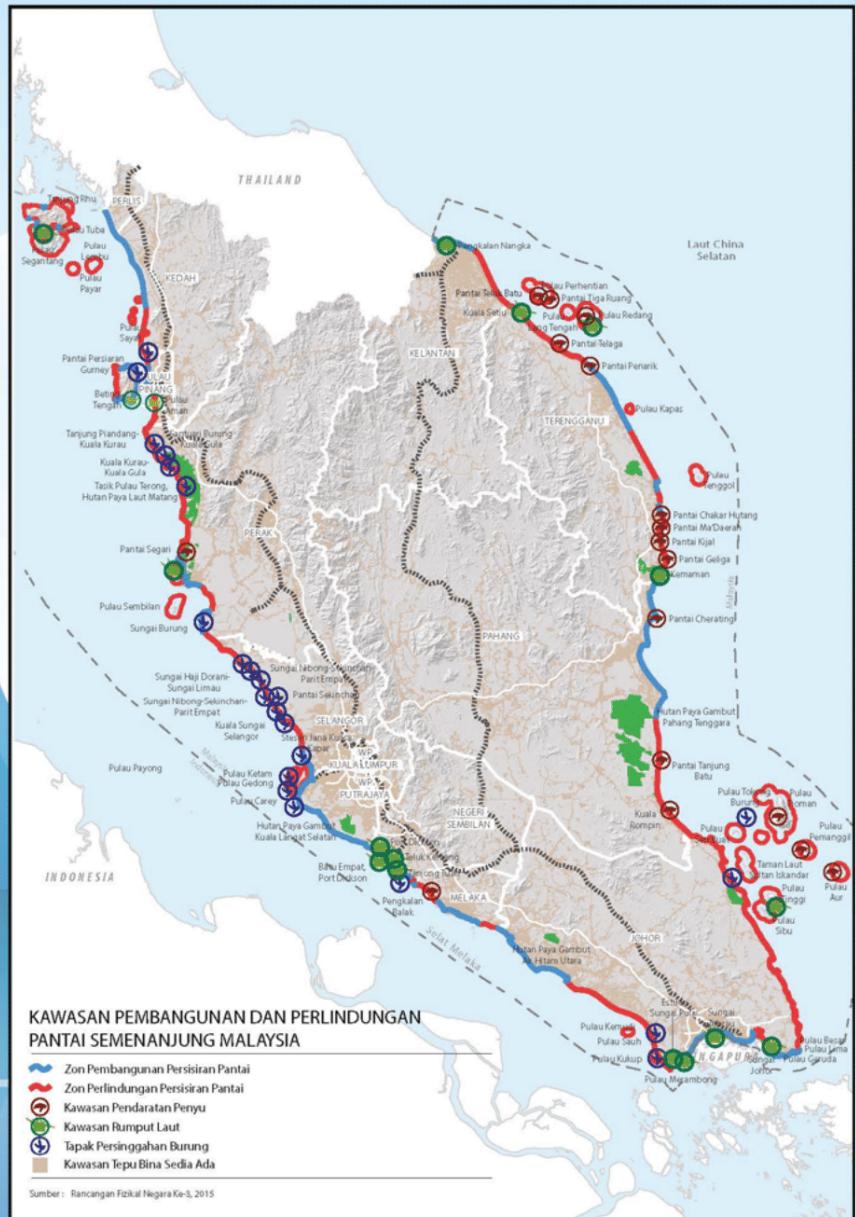

Is an area where development can be considered, subject to the development methods applied. Any development involving a landfill and / or land reclamation should be referred to the National Physical Planning Council and the State Cabinet of the State of Sabah before the Government can consider the approval of the development
